

# ODIS: the contextual disclosure of heritage collections through a joint database on the history of civil society

Erasmus Staff Training Week @ ULiège Library, 10-14 June 2024

Joris Colla  
KADOC-KU Leuven / ODIS

# Content

- (1) ODIS: an introduction
- (2) The use of ODIS
- (3) Some key features of ODIS
- (4) From ODIS 2.0 to ODIS 3.0

## (1) ODIS: an introduction

# ODIS? Oh that!

- <https://www.odis.be>
- Contextual online database where heritage organisations, researchers, volunteers and other users compile, build and share knowledge on the history and heritage of civil society in Flanders, in its Belgian and international contexts
- History:
  - 2000: came into existence, initial funding of the Research Foundation Flanders (FWO)
  - 2006: non-profit association (asbl), interuniversity cooperation (Antwerp – UA, Brussels – VUB, Ghent – UGent, Leuven – KU Leuven)
  - 2009-2014: renewal of the database thanks to a grant of the Hercules Foundation
  - 2022-2027: renewal of the database thanks to a grant of the FWO

## (1) ODIS: an introduction

# A broad partnership of heritage and research organisations

- < 4 cultural archives:

- Close collaboration with:

## (1) ODIS: an introduction

# A broad partnership of heritage and research organisations

- Daily management of ODIS is ensured by KADOC-KU Leuven:
  - Documentation and Research Centre on Religion, Culture and Society
  - Interfaculty centre of KU Leuven (Human Sciences Group), established in 1976
  - Recognised and funded as a cultural archive and heritage library by the Flemish Community of Belgium
  - Focus on the interaction between religion, culture and society in Flanders, in its Belgian and international contexts, from 1750 onwards:
    - Collections
    - Research
    - Public outreach: publications, exhibitions, etc.
    - Public services: reading room, consultancy

## (1) ODIS: an introduction

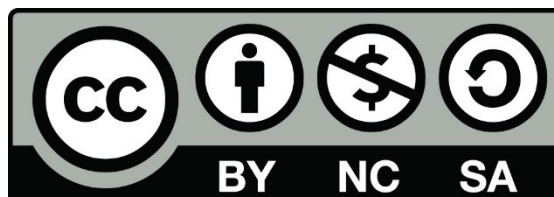

# A broad thematic scope

- Broad partnership > broad thematic scope: politics, social organisations, art and culture, church and religion, education, care, local civil society, etc.
- Information on:
  - Organisations, persons, families, buildings, events
  - Documentary heritage: archives, publications (mainly periodicals)
- Cross-fertilisation:
  - Between thematic fields
  - Between the custodians of cultural heritage collections (mainly archivists and heritage librarians) and researchers

## (1) ODIS: an introduction

# Key figures

Key figures ODIS 2019-2023						
Year	Total volume 31/12	OPAC (NL) volume 31/12	New records	Visits	Unique visitors	Page views
2019	248,710	103,673	13,142	81,405	52,869	521,624
2020	262,554	114,922	13,844	93,872	55,092	640,072
2021	276,077	122,925	13,523	62,395	31,202	505,129
2022	295,335	131,589	19,258	60,399	32,634	448,482
<b>2023</b>	<b>308,144</b>	<b>146,984</b>	<b>12,809</b>	<b>91,642</b>	<b>51,517</b>	<b>604,982</b>

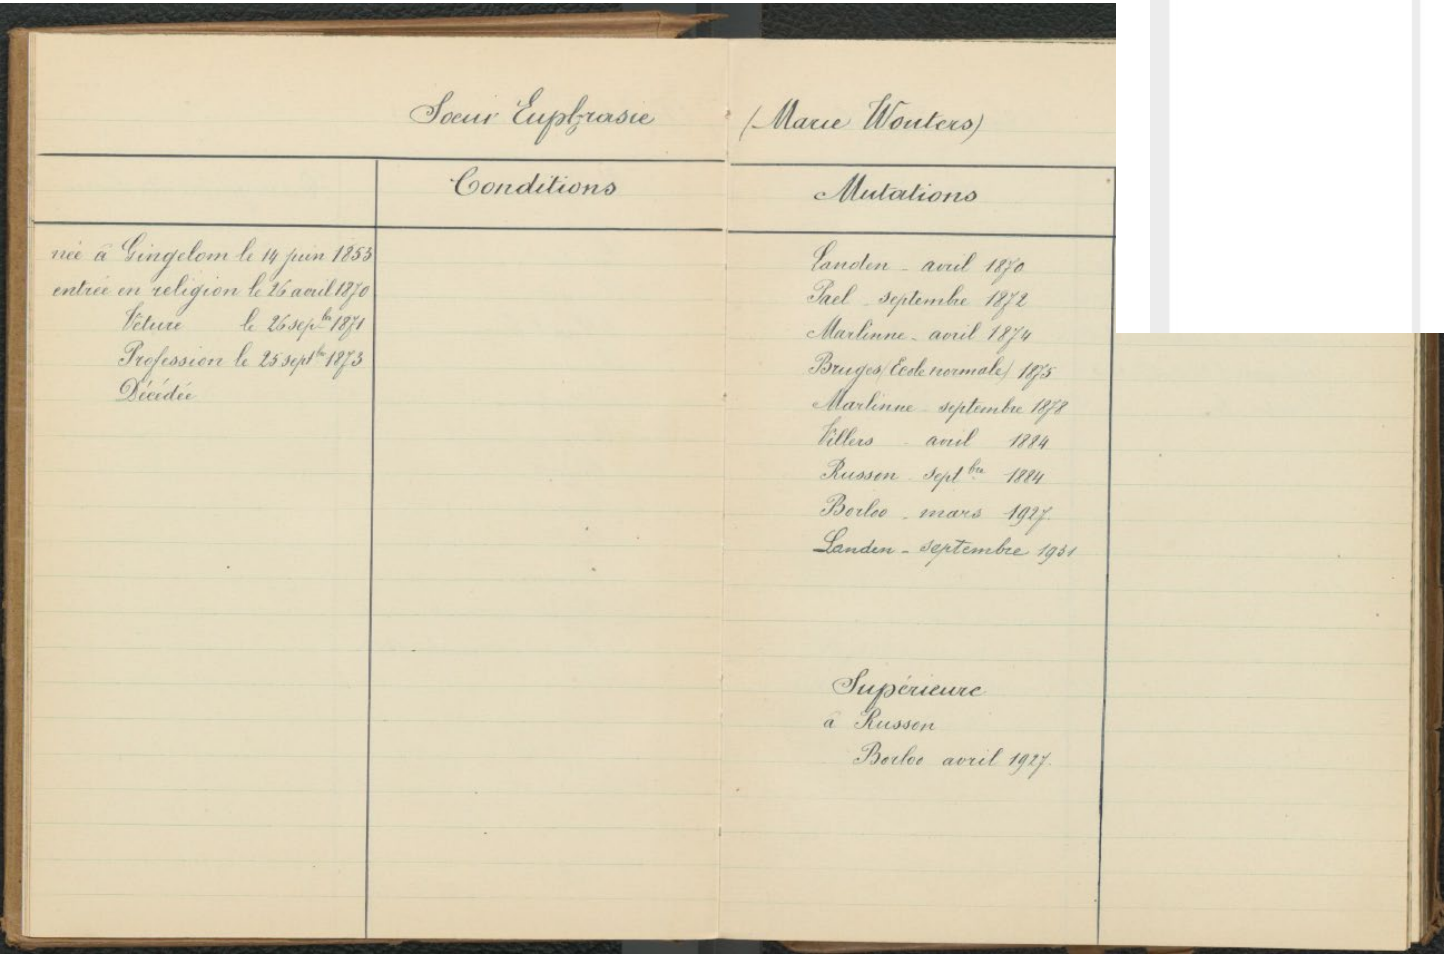

## (2) The use of ODIS

# Storage, centralisation and publication of contextual data sets

- Its partners use ODIS as a safe environment to **store and centralise** their contextual data sets:
  - Manual + automatic data input
  - Giving older, 'forgotten' data sets a new life and interlinking them
  - Guaranteeing the reproducibility of research
- Partners can **publish** their data sets:
  - In the ODIS public catalogue
  - In other environments, e.g. specific OPACs of partners or projects

Validated data, based on sources

ODIS records sometimes replace the consultation of physical heritage

## (2) The use of ODIS

# Multifunctionality: encyclopaedia

The screenshot shows the ODIS website interface. At the top is a red navigation bar with links for HOME, ABOUT ODIS, LOG IN, and LANGUAGE (set to en). Below this is a search bar and a navigation menu on the left. The main content area displays the profile of Charles Rogier, including his birth and death dates, a direct URL, and various links for identification, biography, education, and relations. Below the links are three tables: Names, Domicile and places of residence, and Relatives and acquaintances.

## (2) The use of ODIS

# Multifunctionality: heuristic instrument

The screenshot shows the ODIS website interface. At the top, there is a navigation bar with links for HOME, OVER ODIS, INLOGGEN, and TAAL: nl. Below this, the main content area displays the title 'BULLETIN DES BOTANISTES LIÉGEOIS (1937-[1992]) (PERIODIEK)'. To the left of the main content, there is a sidebar with a search box labeled 'Zoeken', buttons for 'Eenvoudig' and 'Volledig', and a 'Navigatie' button. The main content area includes a 'Rechtstreekse URL' and a list of links for 'Identificatie', 'Inhoud', 'Weergave', 'Bewaarplaatsen', 'Bronnen en publicaties', and 'Varia'. Below these links, there is a section titled 'IDENTIFICATIE' which contains a table with columns 'Titelsoort', 'Titel', and 'Datering'. The table lists four entries: 'hoofdtitel' (Bulletin des Botanistes Liégeois, vanaf 1937), 'ondertitel' (Bulletin des Botanistes Liégeois, vanaf 1941), 'hoofdtitel' (Lejeunia, vanaf 1941), and 'ondertitel' (Revue des Botanistes, vanaf 1945). Below the table, there is a section titled 'Periodiciteit' which shows 'drie keer per jaar'. At the bottom, there is a section titled 'INHOUD' with a sub-section 'Geschiedenis' which contains a paragraph of text.

INHOUD

Geschiedenis

In 1872 wordt de 'Cercle des Jeunes Botanistes liégeois' opgericht, later hernoemd tot de 'Société Botanique de Liège' om in 1941 bij een reorganisering tot vzw opnieuw van naam te veranderen, ditmaal in 'Société Botanique de Liège'. De botanische vereniging beoogt van bij aanvang de studie van flora en vegetatie, de verspreiding en vulgarisering van botanische kennis, en het behoud en de bescherming van de natuur. Zij organiseert excursies, studiedagen, conferenties en tentoonstellingen. In 1947 zal zij mee bijdragen

Joint gateway to

## (2) The use of ODIS

# Multifunctionality: analytical tool

More or less complete data sets, with data input done using thesauri > analytical potential

ODIS as a digital humanities research tool

The screenshot displays the ODIS web interface. On the left, there is a sidebar with a search bar labeled 'Zoeken', buttons for 'Eenvoudig' and 'Volledig' search, a 'Navigatie' button, and a '\* Help' link. The main content area is titled 'Geavanceerd zoeken' and shows a search URL: <https://www.odis.be/hercules/search2.php?histid=1003292>. Below the URL, there is a section for 'Geografische items:' with a dropdown menu 'Kies een zoekterm...'. The search results are displayed in a table with columns 'Id', 'Type', and 'Naam/Titel'. The table shows 7 records, with the first 7 displayed. The records are:

Id	Type	Naam/Titel
2139	PERS	Borboux, Antoine (1863-1919)
37975	PERS	De Pouhon, François (1796-1872)
4936	PERS	Delvaux de Fenffe, Henry (1863-1947)
107064	PERS	Demany, Fernand (1904-1977)
33889	PERS	Pétry, Irène (1922-2007)
107570	PERS	Renier, Henri (1878-1948)
8501	PERS	Wigny, Pierre (1905-1986)

Below the table, it says 'Toont (1 tot 7) van 7 records'. At the bottom of the page, there is a footer with the text 'ONLINE DATABASE VOOR INTERMED...' and a Creative Commons license logo (CC BY NC SA).

Advanced search result: members of the Chamber of Representatives born in the province of Liège and died in Brussels

KU LEUVEN

Early Modern History

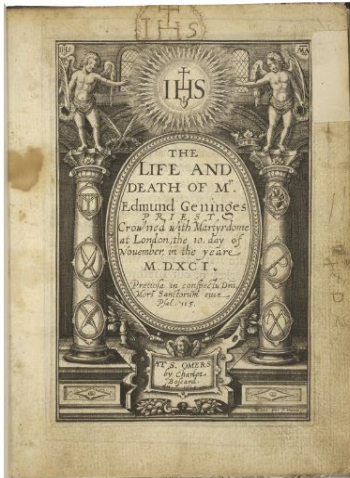

Staff Research Publications

### Impressa Catholica Cameracensia (ICC)

A Database on the Religious Book and its Networks in the Ecclesiastical Province of Cambrai (1559–1659)

Encompassing the Walloon (French-speaking) provinces in the south of the Habsburg Low Countries, the **Ecclesiastical Province of Cambrai** was created in 1559. It included the archdiocese of Cambrai and the dioceses of Arras, Saint-Omer, Tournai and Namur. Located in a transit zone between France, the British Isles and the Holy Roman Empire and functioning as a refuge for Catholic refugees, the province was at the heart of the transregional exchange of Catholic books during the late 16th and early 17th century.

- › Impressa Catholica Cameracensia (ICC) reconstructs the **religious book production and its networks** in the ecclesiastical province between 1559 and 1659.
- › Nearly 5000 editions from [Arras](#), [Ath](#), [Aire-sur-la-Lys](#), [Cambrai](#), [Kortrijk](#), [Douai](#), [Lille](#), [Mons](#), [Namur](#), [Saint-Omer](#), [Tournai](#) and [Valenciennes](#), issued between 1559 and 1659
- › Over 3000 records on printers, publishers, booksellers, authors, translators, editors, censors, eulogists and religious institutions.
- › Constructed within the project *The making of Transregional Catholicism*, funded by KU Leuven Research Council (OT/2013/33, 2013–2017)
- › Part of the larger ODIS-database, hosted by [KADOC-KU Leuven](#).

KU LEUVEN

Early Modern History

Staff Research Publications

### Impressae. Women Printers in Early Modern Antwerp, Leuven and Douai

- › This database is part of the PhD project *At the Sign of the Moon. Family, Women and Work in Early Modern Printing Houses (Antwerp, Leuven and Douai, 1500-1700)*, funded by the Research Foundation – Flanders (FWO) (2016-2020).
- › *Impressae* reconstructs the lives and work of women printers in Antwerp, Leuven and Douai during two centuries (sixteenth through seventeenth). It contains information about kinship and commercial networks, printing houses and rare books.
- › *Impressae* contains linked data on more than 1 300 persons, almost 3 700 publications and more than 150 organisations.
- › For Douai, the database contains all printers and all of their publications until 1659. After this date, we only added women printers and their families. The first part of *Impressae* is a joint effort with the [ICC database](#) and includes data on authors, translators, editors, censors, eulogists, etc. These records are fully accessible.
- › For Antwerp and Leuven, the database contains all women printers and their families, as well as a selection of rare books. These records will become available soon.

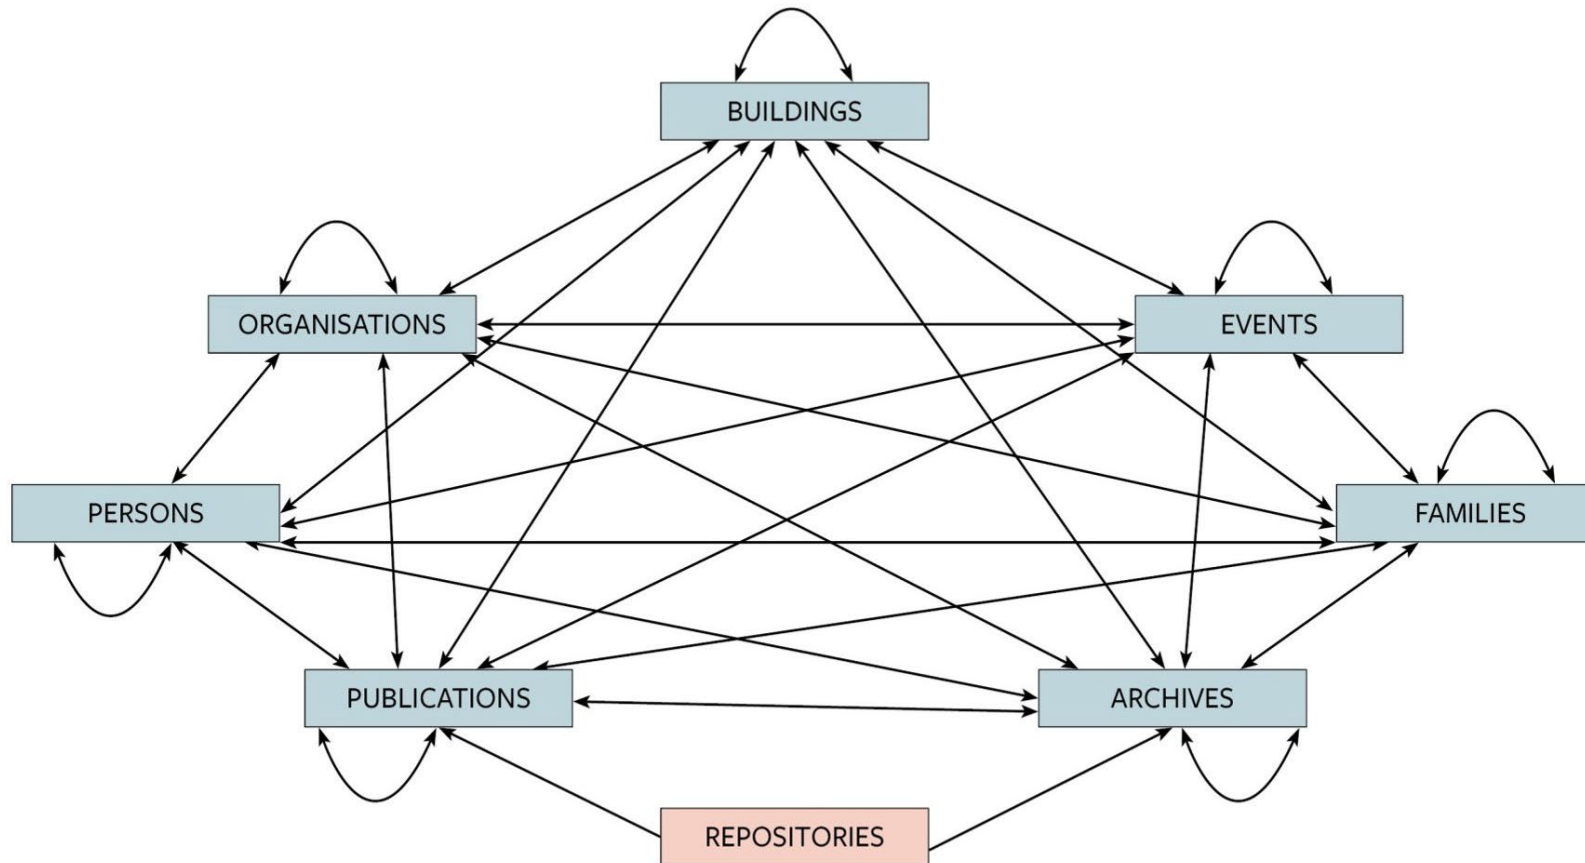

Adaptation of Salomon de Bray, Interior of an art and bookshop, ca. 1628, pen and inkwash. Rijksprentenkabinet, Amsterdam: RP-T-1884-A-

Example: use of ODIS as a research database  
for PhD projects on early modern book history

### (3) Some key features of ODIS

# The data model

**8 interconnected modules**

### (3) Some key features of ODIS

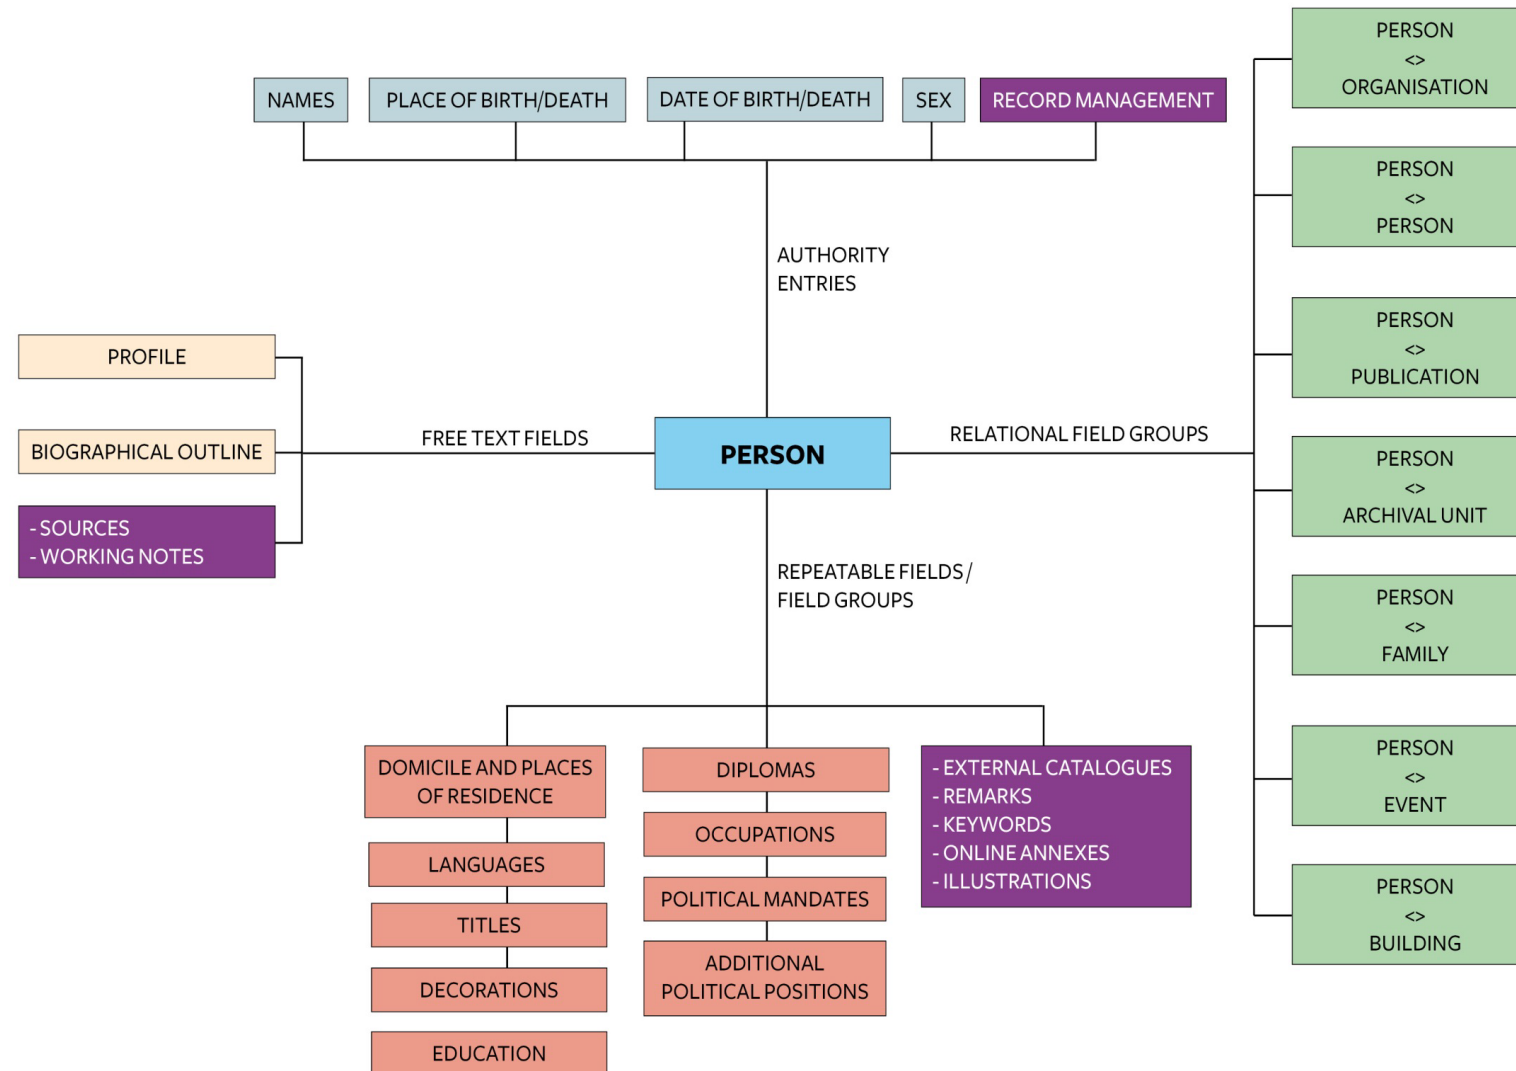

## The data model

- Based on international standards:
  - ISAAR(CPF): organisations, persons, families
  - ISBD: publications
  - ISAD(G): archives
  - Docomomo guidelines: buildings
  - ISDIAH: repositories
- Implementation of:
  - Records in Context (RiC) – International Council on Archives
  - Open Standards for Linking Organisations (OSLO) – Flemish authorities

### (3) Some key features of ODIS

# The data model

**Structure of a  
biographical record**

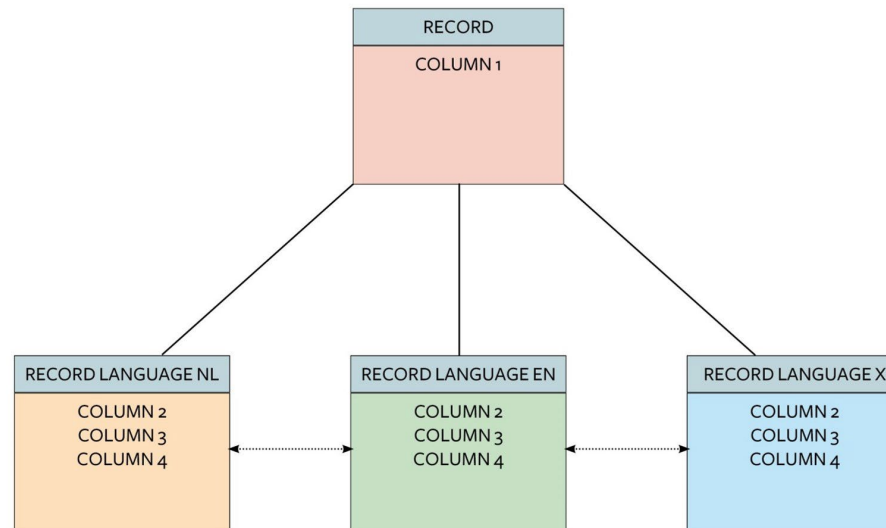

**Only a few elements  
are mandatory**

### (3) Some key features of ODIS

# Multilingualism and multicontextuality

- **Multilingualism:**

- The database is available in Dutch and English
- Each record has a Dutch and an English version
- The Dutch and the English version of a record can be developed independently, they only share some authority entries
- Automatic exchange of more data between the language versions of a record?

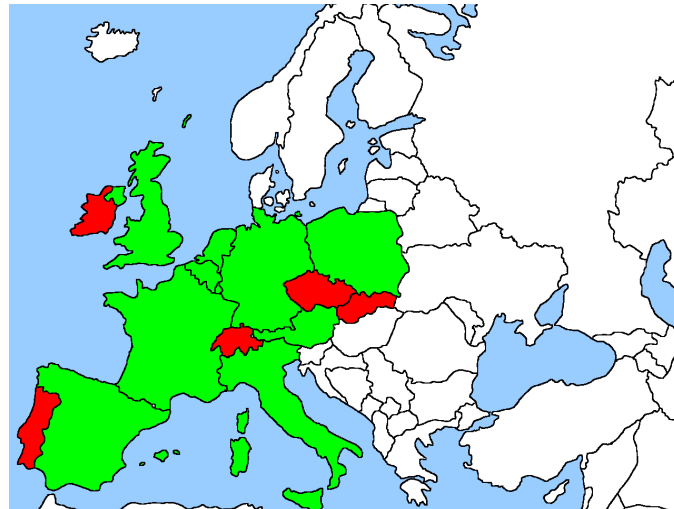

### (3) Some key features of ODIS

# Multilingualism and multicontextuality

- **Multicontextuality:**

- Some thesauri (legal forms, decorations, levels of education – ISCED-97, political positions/bodies/competences) are available for several European countries

- Geographical thesaurus:
  - Terms for all European countries (+ specific places outside Europe)
  - Hierarchical, based on the administrative geography
  - Alternative terms, translations and historical terms are also included

### (3) Some key features of ODIS

## Interconnectivity

- ODIS as an information node in a broad network of data collections:
  - Weblinks to and from ODIS (importance of persistent URLs!)
  - Synchronisation procedures between ODIS and catalogues/databases of the partners
  - 'Database linking tool', allowing to include deeplinks to library catalogues in ODIS records
  - Publication of ODIS authority data in Wikidata
  - ...
