Creation of the Digital Cultural Heritage Platform

- In 2015 the Digital Cultural Heritage Development Strategy as part of the Cultural Policy Guidelines for 2014-2020
- 2017-2023 ERDF projects «Digitization of Cultural Heritage Content Stage I» and «Digitization of Cultural Heritage Content Stage II»
 - Development of the Platform architecture
 - Development of joint digital content management system and storage architecture
 - Development of copyright management system
 - Development of reference data solution
 - Development of joint digital content distribution system *Digital Library of Latvia*
 - Improvement and standardization of digitisation processes
 - Mass digitisation of cultural heritage
 - Digitisation equipment

Digital Library of Latvia launched in October 26, 2023

Simple and advanced search

Full-text search – books , periodicals, e-publications

Search using synonyms

Search using reference data entities (if reference data values are used in the metadata, it is possible to view the entity records and the associated DOs)

Search analog materials in catalogue of libraries of national importance

Linking of similar objects (group of results)

Workplace for registered users (bookmarks, favorites, search history)

Service «Digitization on demand» (including shopping cart and history)

Built-in text speaker

Integrated automatic translation tool for metadata translation

Digital strategy for libraries

The strategy of Latvian libraries 2022-2027 sets the goal of promoting the digitization, preservation, and wide availability of the traditional collection, **breaking down the boundaries between the institutions' digital collections.**

The National Library of Latvia, as the manager of the Platform and manager of the **Competence Center for Digital Cultural Heritage**, will encourage and provide competence and support for integration of library's digital collections into the Platform.

Collect and study local history, regional libraries and museums have unique sources and information about local and sometimes national history

Have:

Local history

Country life in glass plate negatives

113 objects

At the beginning of the 20th century, following the agrarian reform Latvians were the main landowners and agriculture became the basis of the entire economy of independent Latvia; the people and society at that time immortalised important life events in glass plate negatives. The collection includes glass plate negatives from the collections of various photographers and cultural heritage institutions.
